## Introduction

This is a great school district. And we can do better together. Coming in with a fresh perspective, I can tell you I've seen best practices in place. I've already been to impressive performing arts concerts which show a commitment to well-rounded education. I've met the new teacher hires. I've even started to witness the growth of this year's professional development plan, with instructional rounds built into the process. I've heard from families that love their schools. And I have a solid team at the administration building to support our schools as we work together.

This year, as I outlined in my interview, we'll be working on a four key areas:

- Special Education
- North-South (#OneGP)
- Technology
- Enrollment

We can do even better together in meeting the needs of our students with special needs. This will mean more co-taught classes, more targeted professional development, a commitment to the Response to Intervention (RTI) process, and inclusion as appropriate for individual students, using the least restrictive environment. Progress has been made in this area and we are united in this effort.

Technology. Technology changes teaching and learning. We must be providing more digital content. We must explore what we can do using a Bring Your Own Device (BYOD) model with the infrastructure to support it. That infrastructure is the backbone of any technology plan. It's critical and we are slowly working through our buildings to ensure it is in place for our Future Ready Initiative. To be ready for colleges and careers, our students must be technologically literate. Google docs are not just for fun, but are the beginning of student portfolios. Online resources with digital content save money. They are part of the blended learning needed for college. We want students college and career ready with digital skills.

Since Proposal A passed in the mid-90s, our budget as a school system is largely based on the number of students in our seats. Enrollment is down here, and across Michigan. We must do more to market our schools. We must compete. To do that, we all have to tell our story. I invite you in to our schools. Attend our games, plays, concerts, art fairs. Come to the Open House Sunday, November 15, from 1-3 p.m. and walk our hallways with student tour guides. Explore our expanding tuition-based preschool options that will open next fall. Celebrate our excellence. When you talk about any of our schools, you hurt or help your own property values. If there's a problem, tell me so we can fix it.

One of the big themes I've heard is the North vs. South debate. We are rivals on the field, not in the classroom and not in the community. At the North-South tailgate from 5-7 p.m., Friday, September 25, at North High School, you'll learn about ways we're working to bring both ends of the community together. We have two great high schools that share the same curriculum, the same caliber of staff and we want to become #OneGP strong.

Dr. Gary C. Niehaus  
Superintendent

## **Assignment of Studies**

The Board has determined attendance areas and students shall be expected to attend school within that area. A parent may request a transfer or appeal a placement decision on behalf of their student.

The principal shall be responsible for assigning students to classes. In the elementary schools, the principal, in determining the grade level for any new student, may take into consideration the previous schooling of the student but may assign the student to a lower grade level or higher grade level, if in the principal's judgment such an assignment would be in the best interest of the student. In middle school and high school students will be assigned to counselors, classes and instructors by the building principal.

The district also has in place policies and guidelines which guide promotion and retention.

## **Percentage of Parents Participating in Parent-Teacher Conferences:**

2014-15

92% (7,423 Students)

2013-14

94% (7,796 Students)

## **Student Average Attendance: 96.14%**

## **Core Curriculum**

The Grosse Pointe Public School System's core curriculum is developed under the auspices of the Educational Programs Leadership Council (EPLC), a group of teachers, parents, students, and administrators who meet monthly. The core curriculum is based upon state standards in all subjects and extends beyond those by incorporating exemplary local and national standards. Reports of the curriculum committees, which are submitted first to the EPLC then to the Board of Education, include recommendations regarding assessment, professional development, integration of technology, and differentiated instruction to accommodate academic diversity as well as the curriculum itself. The district also offers a wide array of advanced placement and challenging enrichment courses and a comprehensive special education program.

During the 2014-2015 school year, EPLC led the curriculum review for adolescent health, business, social studies and library/media. Teachers doing the review examined assessments, textbook usage, and alignment to Michigan Department of Education requirements. 6<sup>th</sup> thru 12<sup>th</sup> grade social studies and adolescent health curricula are still under development.

During the 2015-2016 school year, the following curricular areas will begin the review process:

- K-12 Mathematics
- K-12 Science
- K-12 Art
- 6-12 Counseling
- K-12 Physical Education
- 6-12 Inter-Departmental Technology
- 6-12 TV Production

District wide professional development is part of a comprehensive plan that uses teacher choice as well as mandatory training in areas identified by our district professional development team.

## **District Strategic Improvement Plan**

### **Strategic Goal Areas**

- Learning for Success—All learners will have engaging and empowering learning experiences both in and out of school that prepare them to be active, creative, knowledgeable, and ethical participants in our globally networked society.
- Assessment of Student Progress and Growth—The GPPSS will leverage the power of student data information and assessment to continuously improve instructional practices that align with Common Core Standards and Universal Design for Learning practices.
- Enhanced Teaching and Professional Development—Professional educators will be supported individually and in teams by connecting them to data, content, resources, expertise, and learning experiences that enable and inspire more effective teaching for ALL learners.
- Ensuring a Safe and Respectful Learning Community—GPPSS will establish and maintain a safe and welcoming environment where everyone is valued, respected, and supported.
- Developing Effective and Collaborative Partnerships—GPPSS will increase collaborative community partnerships and continue to enhance communication and strengthen relationships with families to support our students.
- Achieving Operational Integrity and Marketing—Engage the community regarding the value GPPSS provides all students while securing and effectively aligning the financial resources to achieve district goals.

Long term targets, short-term areas of focus, and key indicators of success have been established under each focus area with a specific, data-driven action plan. More details are available on the district website [www.gpschools.org](http://www.gpschools.org) under School Board – Reports.
