

# Course Expectations Planning Guide

Science

## 450 Environmental Science

---

Please Note: All listed information is intended to provide a general guideline for students in planning their course load. All information provided will vary according to the individual study needs and academic motivation. Events and responsibilities may vary year-to-year.

### Weekly Time Commitment

*Calculated by surveying students to identify an approximate amount of time spent outside of the school day in order to be successful in this course*

### Standard Responsibilities

*Successful students may have the following responsibilities in order to be successful in this course:*

**Daily homework. Homework includes short textbook readings, online activities, lab reports, or learning of current environmental events in the news. Outside field studies both on-campus and off-campus are included during the year. Active participation in class discussions of environmental issues makes ES more relevant and is expected.**

### Significant Events

*Students may expect some significant events that may be a part of this class.*
