Subject: MDHHS Updated Guidance for Schools - Self Quarantine and Isolation

Steve:

The attached was just published by MDHHS

Wayne County is adopting the new self-quarantine and isolation guidelines from MDHHS for schools

Specifically, Wayne County is adopting this protocol for contact tracing;

If the COVID exposure occurred in the school setting no contact tracing is required. This includes in-school contacts, including classrooms, buses, lunch and most extra-curricular activities.

When there is a COVID exposure in the school setting, Wayne County is advising schools to send a general notification letter to the class instructing individuals that they should closely monitor for COVID symptoms for 10 days. No additional contact tracing is required.

Sincerely,

Carol Austerberry, RS, MS, MPA
