

EVERYDAY MATH

Section 3

Section 3 has a number of main areas of focus:

- Introduce the concept of addition and subtraction through concrete activities.
- Introduce number writing. (I have been working on this all along).
- To reinforce and extend counting, numeral recognition, and number comparison skills.
- Introduce skip counting by 10's.
- To introduce the pan balance.
- To introduce non-standard measurement tools and units for measuring length.
- To introduce the basic language of probability.
- To continue shape recognition, patterning and graphing activities.
- To continue estimation and number story activities.
