

# **GROSSE POINTE PUBLIC SCHOOLS**

## **Human Sexuality Advisory Board**

### **Agenda Minutes**

**March 16, 2020**

**4:00-6:00 p.m.**

**389 St. Clair, Grosse Pointe**

- Introductions
  
- Discussion of proposed changes to the 6th-8th AHE curriculum
  - Updated materials, addressed equity/inclusion concerns of previous videos
  - Format felt relevant and easily understood by students; good scientific information in short timeframe
  - Ted Ed good format- students are familiar with format and quick to engage with it; like the way it spoke to why HIV is hard to cure
  - Vaping: Quality video -- begin in 5th grade
  - (MS admins will work to create schedule that allows for small group AHE instruction)
  - MS 6-8 - Have boys and girls together is a great idea; boys and girls will have experience of both girls/boys puberty videos
  - Begin in 7th grade and reinforce in 8th grade; important to educate and equip students with tools to make healthy choices
  - Begin in 7th grade and reinforce in 8th grade; important to educate and equip students with tools to make healthy choices
  - Concern with STI video-- video seemed more intense; teacher needs to set norms before instruction; small group setting would be best; when instruction occurs, stress speak to trusted adult if sexually active; group should continue to look for options for STI but ok with this video until alternative is found
  - All Choking/CPR/AED videos are appropriate and important components of instruction

Action Item/Next Steps:

- Recommendation to EPLC/BOE
