

Mission Statement

The mission of Poupard Elementary School is to educate all students by empowering them with the necessary skills, knowledge, and behaviors for continued intellectual, social, and physical development.

Learning for All: Whatever it Takes.

Student Average Attendance Rate:

95.90%

MDE Scorecard

Poupard earned a yellow designation on the MDE Scorecard (replacing AYP) like every GPPSS elementary and is a Focus School.

Nondiscrimination Statement

The Grosse Pointe Public School System does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. The following person has been designated to handle inquiries regarding the non-discrimination policies:

Stefanie Hayes,
Director of Student Services
389 St. Clair
Grosse Pointe, MI 48230
(313) 432-3851
Stefanie.Hayes@gpschools.org

for the address and phone number of the office that serves your area, or call 1-800-421-3481.

GROSSE POINTE PUBLIC SCHOOL SYSTEM

Each and Every Child, Each and Every Day

Poupard 2012-13 Annual Report

Introduction

The Poupard Elementary School Annual Report is provided to communicate helpful information about the school to parents and the community. Our vision is to provide a well-balanced and academically sound educational experience as well as create a friendly and welcoming environment. Poupard teachers put an emphasis on providing learning opportunities that require students to not only acquire basic skills, but also to use inquiry based learning, reasoning and critical thinking skills, so students are able to reflect on their learning process.

Educational opportunities provided at Poupard are carried out in a structured learning environment. The goal of our school is to provide every student with the opportunity to master reading, writing, math, social studies and science and to go beyond the academic skills required by the state standards. We educate all students by empowering them with the necessary skills, knowledge and behaviors for continued intellectual, social and physical development that they need to succeed. Teachers use a variety of instructional strategies according to students' abilities, learning styles and interests. These differentiation strategies include instructional pacing, acceleration, flexible grouping, in-depth studies, cooperative learning, and high-interest activities. This year, teachers are focusing on writing across the curriculum. Students are using thinking maps to guide them in writing in their metacognition journals for all subjects. A before school tutoring program and after school homework club continue to provide assistance when needed for students.

Poupard Elementary School offers a Head Start Program housed in our school. This gives our preschool students the opportunity to attend a school with their siblings, as well as offering family support.

School improvement efforts this year continued to focus on writing, reading comprehension, math fluency, science and social studies. Grade level and vertical grade level teams work together in Professional Learning Communities during late start Mondays, to analyze trends and to plan strategies for school and student improvement.

The 4th and 5th graders received net books this year from a grant awarded by the Grosse Pointe Foundation. The students worked all year on research in science and social studies, math and writing skills. The teachers continue to find ways to use the net books in their classrooms every day.

Poupard Elementary School continued Positive Behavior Intervention Support (PBIS) this year. We had many activities throughout the school year to further enhance the goals of our school community by fostering Respect, Responsibility and Safety. Our activities included monthly school wide rewards, school store using our yellow PBIS tickets, good citizenship family breakfast and classroom rewards earning our blue ribbon tickets. Our school continues to receive accolades from visitors regarding our peaceful school and well behaved students.

Our Poupard PTO provides generous support for our students including assemblies, classroom materials, enrichment activities and library books. We also have fun activities such as a Tin Can Auction, Holiday brunch and this year we had a Back to School Family Picnic.

As a result of our staff and students' efforts, our school was awarded the Michigan Evergreen School Certificate of Achievement for outstanding performance and lasting contribution to conservation and preservation of the environment. We are one of only three schools in Michigan to be a Green School for six years in a row. Recycling is a part of our science, social studies and community commitment.

Because we stay rooted in our commitment to your children, today's vision, mission and beliefs become tomorrow's reality.

Assignment of Studies

The Board has determined attendance areas and students shall be expected to attend school within that area. A parent may request a transfer or appeal a placement decision on behalf of their student.

The principal shall be responsible for assigning students to classes. In the elementary schools, the principal, in determining the grade level for any new student, may take into consideration the previous schooling of the student but may assign the student to a lower grade level or higher grade level, if in the principal's judgment such an assignment would be in the best interest of the student. In middle school and high school students will be assigned to counselors, classes and instructors by the building principal.

The district also has in place policies and guidelines which guide promotion and retention.

Percentage of Parents Participating in Parent-Teacher Conferences:

2012-13
98.2% (331 Students)
2011-12
99.1% (340 Students)

FERPA Notice

Grosse Pointe Public Schools may, upon request, release the following directory information: student name, address, participation in school activities, date of school attendance, honors and awards, information generally found in yearbooks, and student name, addresses and telephone numbers when requested by military recruiters. Grosse Pointe Public Schools also publishes student information via school sponsored or school-related media, including activities of the Grosse Pointe Foundation for Public Education.

Parents or students, 18 years or older, who do not wish this information made public should complete the Public Use-Directory Information Notice Form available at: www.gpschools.org

Core Curriculum

The Grosse Pointe Public School System's core curriculum is developed under the auspices of the Educational Programs Leadership Council (EPLC), a group of teachers, parents, students, and administrators who meet monthly.

The core curriculum is based upon state standards in all subjects and extends beyond those by incorporating exemplary national standards. The reports of the curriculum committees, which are submitted first to the EPLC and then to the Board of Education, include recommendations regarding assessment, staff development, integration of technology, and differentiated instruction to accommodate academic diversity as well as the curriculum itself. The district also offers a wide array of advanced placement and challenging enrichment courses and a comprehensive special education program.

During the 2012-13 School year, EPLC led the curriculum review for the World Language Department. Teachers doing the review examined assessments, textbook usage, and alignment to the newly revamped Michigan Department of Education World Language requirements. The revised World Language curriculum was unanimously approved by the Board of Education in the spring of 2013. Staff development on specific reading comprehension strategies through a program called *Making Meaning* also continued throughout the 2012-13 school year. The implementation and training in Reader's Workshop is part of a three-year plan to develop readers and writers in our elementary students for their success in the challenging curriculum they will be facing at the middle and high school levels. This coming year, we seek volunteers to serve on the review committees for K-12 Science, Social Studies, Library/Media, and Secondary Business.

School Improvement Plan

Poupart Elementary School continues to demonstrate improved scores on national, local and state tests, as well as in daily performance and participation in class.

As part of our School Improvement Plan, the Poupart staff has worked collaboratively throughout the school year to review and analyze student achievement data related to the district curriculum to determine our areas of greatest need and where there needs to be improvement. Through the work of our Professional Learning Communities, each grade level teacher, support staff, and parent on our team has been a part of our school improvement plan in identifying specific goals and strategies to address areas of need.

Based on our current and ongoing school improvement plan our goals are:

- All students will improve their narrative, fiction, and informational writing skills. Classroom teachers will guide students to focus on one main idea with a well organized and developed beginning, middle and ending to their stories.
- All students will demonstrate increased proficiency in their reading comprehension or narrative and informational texts. Their proficiency will be measured by Fountas and Pinnell Reading Levels, MEAP tests, NWEA test and classroom assessments.
- Students will increase their knowledge in math content area, through improved application of math vocabulary in problem solving skills. Students will also increase fluency of basic math facts at each grade level.
- Students will increase their knowledge of science information through supporting the curriculum with informational text. We will also use before school sessions to help new students attain science curriculum information they did not previously receive.
- Students will increase their knowledge of social studies by putting emphasis on informational social studies text and use of project based learning.
