Friday	11/2/18	Elementary Level Meeting @ Monteith	8:00
		Magnet Meeting	12:30
		Mom Son Dodgeball	6:30

Notes:

October 31st Halloween Schedule

9:00 Parade
9:30 All School Assembly
10:30 Classroom parties
11:36 Students dismissed (October 31st is a half day).

Students wear costumes to school. Students are not to wear full masks or masks that can obstruct their vision. Also, props that resemble weapons or can be used as a weapon are not allowed.

Our parade will begin at 9:00. 5th grade will lead the parade with 4th grade following. We will proceed down the back stairwell and pick up 3rd grade and magnet classrooms. We will exit the building out the bike rack doors and pick up 1st and second at the outside classroom doors along the sidewalk. We will then pick up Mrs. Walkley, Mrs. Lane, and Mrs Moskwa's classroom then proceed

across the blacktop to pick up kindergarten. The parade will proceed down Roslyn to Wedgewood, cross the street and parade down the other side of Roslyn to Morningside. We will cross at Morningside and enter the building through the bike rack doors. Students will proceed directly to the gym for the assembly.

4th and 5th Grade F&P

All 4th and 5th grade F&P scores should have been entered into Illuminate by October 26th. Please make sure you take the time to enter your levels.

Evacuation Drill Debrief

For the most part the Evacuation Drill went well. As we the Response Team debriefed we identified a few things to do differently:

1. Students need to walk 2x2 rather than single file to keep the line more compact
2. All students should walk on the same side of the street (stay to the side that is nearest the school)
3. We will use a map of North PAC to assign seating

WIG resources

[Lead Measures](#)

October 31st PD

All K-5 teachers meet in the computer lab at 12:45. **Please bring your students' F&P tests with you.**

Focus: Using F&P to identify Student Reading Goal with a specific focus and identify Lead Measures.

Fence

Our playground is now completely enclosed with a fence. In order to ensure 100% effectiveness it is important that the gates are appropriately closed. I have asked Valter to do a walk around after the students enter the building to make sure all gates are closed. I will also send out a parent communication. I am asking that when you go out to recess one of the supervising adults checks each gate or assign one of your students to check each gate to make sure it is locked. Keeping kids safe is only as good as the effort we put into it. Thanks everyone.
