

### **How do I send the test scores to colleges?**

Test scores are not posted on transcripts. Students must arrange to have ACT, SAT and Subject Test information (as necessary) sent directly to the testing company on-line through ACT ([www.actstudent.org](http://www.actstudent.org)) or The College Board ([www.collegeboard.com](http://www.collegeboard.com)). At peak times it can take 3-6 weeks for scores to be received by a college. We advise that you request your scores as early as possible, as many colleges do not accept rushed scores. Colleges will not consider an application complete until the score is received.
