

# Digital Picks

From your Elementary Library Media Specialists

December 2019

Please enjoy this month's "digital picks," selected by the Elementary Library Media Specialists for the families of the Grosse Pointe Public Schools.

"[Magnus' Kingdom of Chess](#)" is the fun way for children from 5 years old to learn chess and unleash their cognitive potential. Ages 6-12

Download the [Evo by Ozobot app](#) to connect to your Evo. Then, explore the app as you add friends, play games, run OzoBlockly programs, and more! Don't have an Ozobot device, please visit one of the public libraries and check one out for free to use at home!

[GoNoodle Kids](#) is a large collection of videos that encourage kids to get up and get moving, similar to [GoNoodle](#), which is primarily used in classrooms.

[My Story - Book Maker for Kids](#) is an extraordinarily easy-to-use book creator and book-sharing app. This app empowers kids to create books using multiple forms of expression including photos, typed content, voice recordings, and drawings created in-app.

**Novelist K-8 Plus** is a trusted source of read-alike recommendations specifically for younger readers. It helps kids find books that are just right for their reading level and interests. Available through the [Grosse Pointe Public Library](#) site (menu>youth>scroll down to Novelist).
