

Digital Picks

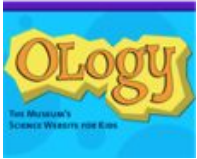

The Museum Issue

From your Elementary Library Media Specialists

November 2019

Please enjoy this month's "digital picks," selected by the Elementary Library Media Specialists for the families of the Grosse Pointe Public Schools.

If you can't enjoy a real museum visit with your kids, try one of these virtual museum adventures!

LOGY: The Museum's Science Website for Kids Track mythical creatures, visit Antarctica, reconstruct a dinosaur skeleton, and more, all courtesy of the American Museum of Natural History in NYC.

Smithsonian National Postal Museum Want a different sort of coding challenge? Learn how to decode the barcodes used on US mail!

Getty Games Eye-catching, brain-teasing games (Match Madness, Detail Detective, Jigsaw Puzzles, Switch) introduce players to diverse materials from the Getty Museum in L.A.

MET Kids Explore the wonders of the Metropolitan Museum of Art via kid-hosted videos, interactive maps and time-machine travel to distant times and cultures.

SpacePlace: Explore Earth and Space NASA takes you "to infinity and beyond!" with games, activities, videos, and crafts about our earth, solar system, and universe.

And of course, these local museum treasures just around the corner:

Try the [Michigan Activity Pass](#) from your local library!
