

NAME : _____

HOOR : _____

MATHEMATICS NIGHTLY HOMEWORK ROUTINE

I REVIEW OF LAST NIGHT'S HOMEWORK

- A. Correctly redo in pencil any problem which you did incorrectly.
- B. Review this correct work ALOUD.
- C. If you still do not understand a problem:
 - 1. First write the correct work out again in your notes.
 - 2. Then write down your questions to ask in class tomorrow.

II TONIGHT'S ASSIGNED WORK

- A. Review text examples and *Check Your Understanding* for tonight's homework.
- B. Review, ALOUD, today's class notes and last night's notes.
- C. Do the assigned work. [Follow the Manual for Success' standards]
 - 1. Use pencil & loose-leaf only. Be neat & organized.
 - 2. Print your name, the date, hour, title, and assignment (e.g. 2.3 25/1-9).
 - 3. Work in a single column & skip lines between problems.
 - 4. Leave room for changes which may be made in class.
 - 5. Show how you arrived at the answer.
 - 6. Check your work: **USE THE SOLUTION PACKET.**
 - 7. If you did a problem incorrectly, write out the complete solution.
 - 8. When you encounter difficulty:
 - 🍎 Discuss why you're "stuck" with someone at home.
 - 🍎 Call a friend and ask them for help.
 - 🍎 At the very least, write down the problem as it is given in the text, and leave space for the correct work which you will write down in class tomorrow.

III PREPARATION FOR TOMORROW'S CLASS

- A. Read the next section in your text.
 - B. In your notes write:
 - 1. Important ideas. (this may include bold print & examples in text)
 - 2. Questions, to ask in class, about the reading/concepts that are not clear to them.
 - 3. Your work for the *Guided Practice* problems.
- *** Use your solution packet to check the work you did for the *Guide Practice* problems .
