

## **Parenting Resources**

Unfortunately, children do not come with “how to parent me” manuals. Parents need a village of support at times especially when there are unique challenges or life stressors. Here are a few resources that you might find helpful for parenting your child(ren).

Books available in our local library:

Parenting with love and logic: teaching children responsibility.

Love and logic magic for early childhood: practical parenting from birth to six years.

The potty journey: guide to toilet training children with special needs, including autism and related disorders.

The happiest toddler on the block: how to eliminate tantrums and raise a patient, respectful and cooperative one to four year old.

Online Resources:

Ages and Stages Questionnaire: <https://www.asqonline.com//family/e65d66> . This questionnaire asks developmental questions and will provide you with feedback and parenting suggestions based on your answers.

The Family Center Website: <http://www.familycenterweb.org>. This local organization provides information and local resources for families in our community.

American Academy of Pediatrics: <http://www.healthychildren.org/English/Pages/default.aspx> This website contains a lots of valuable information.

Local Medical/Behavioral Resources:

University of Michigan: <http://www.med.umich.edu/yourchild/topics>

Pediatric Potentials: <http://www.detroitchildren.org/?id=123&sid=1>

Beaumont Hospital: <http://www.beaumontchildrenshospital.com/autism-spectrum-disorder-treatment>

The Judson Center: <http://www.judsoncenter.org>
