

GPPSS Printer Policy Effective March 1, 2013 Technology Department New Printer Prices 03/24/2017

The installed inventory of printers in GPPSS continues to age and with the current budget challenges, there is no budget for replacement of classroom or office printers. The district has deployed many multi-function copier/printers (MFP) with a master contract with Toshiba. All computers in the district should have access to print on one or more of the shared copier/printers.

Until now, the district was able to provide replacement toner and repairs for the laser printers installed in the district. Due to the age of the printers, repair parts are not available through the district maintenance suppliers. These printers are not repairable. The district recommendation is to print to one of the shared copiers available in the building.

If a local printer is desired for a classroom or office, the district will allow an individual or department to purchase the printer. Technology will arrange for the purchase of these printers through the district Dell Premier Account, to ensure compatibility with the district network and that the correct discounted prices is obtained. The funds for the purchase may be building, department, PTO or personal funds.

The technology department has identified and tested four Dell printers that are compatible with our network. These are the only printers that will be authorized. If Dell discontinues these printers in the future, the Technology Department will identify appropriate replacement models and update the authorized printer list. The print drivers have been tested and are installed.

These printers are (new model numbers and prices in **bold**):

Dell **E310dw** Monochrome laser printer (light duty) – locally or network attached:

\$103.99

Replacement toner cartridge CVXGF: \$41.84

Dell **S2830DN** Monochrome laser printer (heavy duty) – locally or network attached:

\$137.49

Replacement toner cartridge FR3HY: \$100.43

Dell C1760NW Color laser printer (light duty) – locally or network attached: **\$199.99**

Replacement black toner cartridge XKP2P: \$28.82

Replacement magenta toner cartridge MHT79: \$41.84

Replacement cyan toner cartridge YX24V: \$41.84

Replacement yellow toner cartridge J95NM: \$41.84

Dell **C2660dn** Color laser printer (heavy duty, Google Cloud Print) – locally or network attached: **\$209.99**

Replacement cyan toner cartridge V1620: \$71.60

Replacement yellow toner cartridge R9PYX: \$71.60

Replacement magenta toner cartridge GP3M4: \$71.60

All supplies for the printer will also be the responsibility of the building, the department or individual. These printers will not be covered by the current Toshiba support contract and will not have a Toshiba ID tag. Technology will install the printer and provide any cables needed. Repair parts/service and replacement toner cartridges will be the responsibility of the individual or department that purchased the printer. Technology will not purchase toner or provide repair services.
