

**THE GROSSE POINTE PUBLIC SCHOOL SYSTEM  
Grosse Pointe Woods, Michigan  
March 20, 2023**

**AGENDA NUMBER & TITLE: 5.4.**

**Approval of IA Program Relocation,  
Boiler Replacement and Counseling Area  
HVAC GMP**

**BACKGROUND INFORMATION:**

On January 13, 2023 we held a public bid opening for proposals received on the IA program relocation, boiler installation, counseling area HVAC installation project. The subsequent weeks consisted of post bid interviews to ensure the appropriate scope of work was included in the bids and there were no errors or omissions. We also had extensive discussion at the Finance & Facilities Committee meetings held on January 30, February 16 and March 7, 2023.

This recommendation is to approve the 2023 guaranteed maximum price (GMP) contract for this project. All trades including demolition, concrete, plumbing, HVAC & controls, electrical, general trades, glass & glazing, flooring, painting, masonry and steel are included. \$4,780,825 would be awarded to Turner while the District would hold a direct contract in the amount of \$218,525 for total hard costs of \$4,999,350. Construction management fees total \$970,225. Owner-controlled contingency recommendation of \$477,152. The total not to exceed cost for this project is \$6,446,727

Additional information enclosed include the February 13, 2023 Plante Moran CRESA recommendation letter and January 25, 2023 Turner recommendation letter.

Please note, there are four additional items that will need to be contracted if this project is approved. Consistent with all prior projects, abatement, move management and commissioning are all handled as separate contracts/awards; the estimated cost for these services is \$125,000. Unique to this project is a temporary boiler that would heat the IA building once the new hydronic boilers are installed and the current steam boilers are turned off; the estimated cost for the temporary boiler is \$60,000.

An updated timeline that assumes BOE approval on March 20, 2023 is included (see PDF pages 30-32).

**REQUEST:**

The Board of Education approve the IA Program Relocation, Boiler Replacement and Counseling Area HVAC project costs including hard construction, construction management fees and owner-controlled contingency in the amount of \$6,446,727.

RE: 2018 Grosse Pointe Public School System Bond Program  
**GP South High School IA Program Relocation, Boiler Installation, Counseling Area HVAC Installation.  
Turner Construction GMP and Project Cost Recommendation**

Dear Ms. Matheson:

This letter transmits an update from Plante Moran Cresa (PMC) as it relates to the assignment to assist and advise the Grosse Pointe Public School System (GPPSS) in the procurement of subcontractors for the Grosse Pointe South High School IA Program Relocation, Boiler Installation, Counseling Area HVAC Installation (Project). This update represents the mutual efforts of PMC, French/Ehresman Architects, Turner Construction and GPPSS administration (The Project Team) to present a framework in order to identify, evaluate and recommend Firms for this Project.

The school district's design team, French/Ehresman Architects, provided construction documentation for the Project on October 17, 2022 plus addendums 1 (12-2-22), addendum 2 (12-21-22) and addendum 3 (1-6-23) to Turner Construction for public bidding. The Project consists of relocating IA programs to the main GP South building, installing new condensing boilers to replace the two existing steam boilers and new mechanical work associated with the counseling/office area. Bids were received by GPPSS on January 13, 2023 and were opened and read aloud publically. Post bid interviews followed for each bid category with award recommendations provided by Turner per their attached letter dated January 25, 2023.

#### **RECOMMENDATION**

The Project Team is recommending Turner's Construction bid contract amount of \$5,751,050 plus \$218,525 owner held trade contract (demolition) plus \$477,152 owner-controlled contingency totaling **\$6,446,727** be established for this Project. The cost of this work will be detailed in a GMP Amendment to Turner's AIA-A133 Agreement, pending final review and approval of terms by district legal counsel. The Project will be funded by **bond** proceeds.

Should you have any questions regarding this recommendation described above, please do not hesitate to contact me at 248-766-0996 or robert.stempien@plantemoran.com.

Sincerely,  
PLANTE MORAN CRESA

Re: South High School – IA Consolidation, Boiler Replacement, and Counseling / Principal Office Heat, GMP

Dear Mr. Stempien and Mrs. Matheson,

Enclosed is our GMP for the Grosse Pointe Public School – South High School IA Consolidation, Boiler Replacement, and Counseling / Principal Office heat project. The GMP total is \$5,751,050 and includes \$111,011 in construction manager's contingency. Please note that the base bid values and alternates for bid package 01 – demolition are not included within this GMP and will be owner assumed trade contractors which total \$218,525. The total project cost for the South High School IA Consolidation, Boiler Replacement, and Counseling / Principal Office heat project inclusive of the owner assumed trade contractor values is \$5,969,575.

Enclosed are the following:

1. GMP Summary & Detail
2. Assumptions and Clarifications
3. Staff, General Conditions & General Requirements Summary & Detail
4. Bid Leveling Sheets
5. Schedule

We look forward to reviewing this submittal in detail with the team. Should you have any questions or comments, please do not hesitate to contact me at 313.596.0527.

# Grosse Pointe South High School IA Consolidation – GMP Submission

---

## Assumptions & Clarifications

### General

1. Due to the recent outbreak of COVID-19 and the unpredictable nature of pricing this current state of the pandemic, the GMP does not include schedule of cost impacts caused by events outside its control including without limitation delays and cost escalation arising from pandemics, financial shock, supply chain disruptions and travel bans caused by the COVID-19 outbreak. The Contract Time and GMP may be adjusted for the impacts caused by events outside Turner Construction's control based upon the terms of the Agreement or otherwise mutually agreed upon by the Owner and Turner Construction.
2. This estimate is based upon the following documents.
  - a. Grosse Pointe South High School IA Consolidation, 'Construction Drawings' dated October 17, 2022 as prepared by French Associates and Ehresman Architects.
  - b. Grosse Pointe South High School IA Consolidation, 'Specifications' dated October 17, 2022 as prepared by French Associates and Ehresman Architects.
  - c. Grosse Pointe South High School IA Consolidation, 'Addendum 01 Drawings and Specifications' dated December 2, 2022, Addendum 02 dated December 21, 2022, and Addendum 03 dated January 6, 2023 as prepared by French Associates and Ehresman Architects. Addendum
  - d. The original preconstruction only included estimating, management and purchasing department hours. The engineering, submittal processing and material procurement staff hours are being shifted from Construction Staff to Preconstruction as agreed. This will require a GMP increase for the preconstruction hours.
  - e. Staff rates are fixed thru the 2023 calendar year. Future annual adjustments will be required.
  - f. Insurance and Bond rates have been adjusted for the 2023 calendar year.
3. The following items are excluded:
  - a. Architectural or engineering fees
  - b. Owners representative fees
  - c. Owner contingencies
  - d. Builders risk insurance
  - e. Subcontractor Default Insurance
  - f. Furniture, fixtures and equipment (e.g., sculptures, furniture, demountable partitions and workstations, café equipment, waste receptacles, freezers, refrigerators, etc.)
  - g. Relocation and Final connections of Grosse Pointe Public School System furniture, appliances, fixtures and equipment.
  - h. Moving and relocation costs.
  - i. Disassembly, moving, and reassembly of shelving, owner equipment, and furniture.
  - j. Legal Fees.
  - k. Phones, computers, and other technology equipment and supplies.
  - l. TV's and other audio visual equipment.
  - m. Single source specification of materials and systems.
  - n. Financing costs.
  - o. Installation of Owner furnished items.
  - p. 3<sup>rd</sup> Party Testing of: soils, concrete, curtainwall, roofing, masonry, sealants, steel, etc.
  - q. Peer design review costs.
